### **EUROLAB and IMEKO signed a new MoU to consolidate their communication and collaboration on joint future projects**

December 2<sup>nd</sup> 2021- Online meeting

**Participants:** Paolo Moscatti, EUROLAB President, Frank Härtig, IMEKO President, Drewin Nieuwenhuis, EUROLAB Secretary-General, Laura Martin, EUROLAB International Affairs Manager, Ioana Voicila, EUROLAB Policy Officer, Mladen Jakovcic, Croatian Metrology Society President, Zoltan Zelenka, IMEKO Secretary-General, Leonardo Iannucci, IMEKO TC 24 Scientific Secretary, Kristine Zelenka, IMEKO Secretary, Tatjana Tomic, IMEKO TC 24 Chair.

**EUROLAB** and IMEKO (International Measurement Confederation) are delighted to announce the signature of the new Memorandum of Understanding which took place on December 2<sup>nd</sup>, 2021, which comes as the next step in enhancing closer cooperation between the two organisations.

With the opportunity of the signature of the MoU, the Presidents of EUROLAB, Paolo Moscatti, and IMEKO, Frank Härtig, along with the Secretariats of both organisations, discussed key topics of relevance.

The focus was around the cooperation opportunities for the first quarter of 2022 regarding the joint organisation of events such as the “45 minutes seminars”, where experts could share ideas and expertise on various metrology topics. Also, for the third quarter of 2022, the discussion was concentrated on the organisation of conferences related to different IMEKO Technical Committees such as TC6 Digitalization, TC11 Measurement for Testing, Inspection and Certification, TC 24 Chemical Measurements and TC 23 Metrology in Foods and Nutrition, for which EUROLAB will be supporting IMEKO and delighted to be an official partner.

Moreover, the discussions included the close cooperation in terms of the communication activities, exchange of key information of newsletter’s publications, creation of interactive videos between the two organisations on topics of relevance, enhance of the communication of the two Secretariats with regular exchange of relevant data.

Last but not least, the two organisations will maintain continuous communication to explore new opportunities on common topics and activities such as organisations of webinars on Decision Rules and Sampling, Lab of the future and Digitalisation.
